

SANITATION SHIELD - SMALL CAR / SMALL SUV

Part # : 40634

Sanitation Shield - Small Car / Small SUV

The Sanitation Shield is a clear polycarbonate panel with two clamping headrest mounting brackets. This protective partition is a convenient and effective way of providing separation to help prevent the spread of infectious respiratory droplets. The Partition Shield is suitable for taxis, ride-shares, shuttles and fleets to provide greater safety conditions for both passengers and driver.

Features and Benefits:

- Separates the driver of the vehicle from backseat passengers to reduce person-to-person disease transmission, as recommended by the CDC.
- Made with clear and flexible ¼" polycarbonate that allows for different seating positions between passenger and driver side seats.
- All parts have smooth edges and rounded corners.
- Easy to install brackets, without drilling or damage to the vehicle.
- Adjustable panel position and angle allow for fitment in most passenger vehicles

Please allow 4-6 weeks for delivery. Professional installation recommended.
